

Week	Term 1		Term 2		Term 3		Term 4	
2	Number and place value	NA701 The Four Operations Number and place value (ACMNA123)  NA706 Adding and Subtracting Integers Number and place value (ACMNA280)  NA702 Index Notation Number and place value (ACMNA149)  NA703 Prime Factorisation Number and place value (ACMNA149)	A701 The Four Operations umber and place value (CMNA123)  A706 Adding and ubtracting Integers umber and place value (CMNA280)  A702 Index Notation umber and place value (CMNA149)  A703 Prime Factorisation umber and place value (CMNA149)  A704 Square and Cube umbers umber and place value	NA708 Adding and Subtracting Fractions Real numbers (ACMNA153)  NA709 Multiplying and Dividing Fractions and Decimals Real numbers (ACMNA154)  NA713 Finding Percentages Real numbers (ACMNA158)  NA714 Ratios Real numbers (ACMNA173)	Introduction to algebra	NA705 Laws of Arithmetic Number and place value (ACMNA151)  NA716 Variables in Algebra Patterns and algebra (ACMNA175)  NA718 Applying Laws of Arithmetic to Algebra Patterns and algebra (ACMNA177)  NA717 Substitution in Algebra Patterns and algebra (ACMNA176)	Linear relationships	NA719 The Cartesian Plane Linear and non-linear relationships (ACMNA178)  NA720 Solving Simple Linear Equations Linear and non-linear relationships (ACMNA179)  NA721 Travel Graphs Linear and non-linear relationships (ACMNA180)
4		NA704 Square and Cube Numbers Number and place value (ACMNA150)						MG708 Defining and Identifying Angles Geometric Reasoning (ACMMG163)
5				NA715 Discounts Money and financial mathematics (ACMNA174)				MG709 Investigating Parallel Lines Geometric Reasoning (ACMMG164)
6	Fractions, decimals and percentages	NA707 Equivalent Fractions Real numbers (ACMNA152)  NA710 Expressing Quantities as Fractions Real numbers (ACMNA155)  NA712 Converting BetweenFractions, Decimals and Percentages Real numbers (ACMNA157)  NA711 Rounding Decimals Real numbers (ACMNA156)	Area, volume and shape	MG701 Formulas for Areas Using units of measurement (ACMMG159)  MG703 Views of Prisms and Solids Shape (ACMMG161)  MG702 Calculating the Volume of Rectangular Prisms Using units of measurement (ACMMG160)	Introduction to data	SP703 Primary and Secondary Data Data representation and interpretation (ACMSP169)	Geometry	MG706 Classifying Triangles and Quadrilaterals Geometric Reasoning (ACMMG165)
7						SP704 Data Displays Data representation and interpretation (ACMSP170)  SP705 Calculating Mean, Median, Mode and Range Data representation and interpretation (ACMSP171)  SP706 Interpreting Data Displays Data representation and interpretation (ACMSP172)		MG707 Angle Sums of Triangles and Quadrilaterals Geometric Reasoning (ACMMG166)
8							Transformations	MG704 Reflections and Translations Location and transformation (ACMMG181)
9			Probability	SP701 Sample Spaces Chance (ACMSP167)  SP702 Assigning Probabilities Chance (ACMSP168)				MG705 Rotations Location and transformation (ACMMG181)
10
